

ELECTRONIC SURVEILLANCE FOR UNDERCOVER OPERATIONS

8:00 am – 5:00 pm (Central)

Instructor: Allan Melton, SurTec (Retired Bureau of ATF)

Electronic Surveillance (ES) is used by every Law Enforcement agency from Federal LE to the smallest 3-man local department. ES is a lifeline for officers, as well as an evidence gathering / prosecutorial tool for investigations. No department or agency can function without it, and every investigator should have a basic understanding of it.

In this Basic ES course, we will study and answer these and many other questions:

- What is ES and why is it essential for Law Enforcement operations?
- What are the primary purposes for ES?
- What are the roles, functions, types, and limitations of:
 - Transmitters; Receivers; Repeaters; Recorders; Concealments.
 - High power vs Low power devices
 - GPS Tracking devices and methods
 - Covert vs Overt ES
 - Body-worn vs strategically placed
 - IP Cameras
- What are the advantages and disadvantages of
 - Hard-Wired vs Wireless equipment
 - Microwave vs RF vs Cellular equipment
- What are ES Countermeasures and how can they be used against us.

The class will also provide investigators with an overview of the ES equipment available to them thru ROCIC.

COST

NO REGISTRATION FEE!

Attendees are responsible for lodging, meals and travel.
